du Canada

The Dryden District Chamber of Commerce has been the voice of business since 1931.

It was established to promote civic, commercial, industrial and agricultural progress in Dryden and the surrounding district. It serves and works towards legislation and efficient administration at the community and government levels.

We are an independent, membership-based, not-for-profit organization governed by a board of directors, and our aim is to provide relevant services to businesses, enabling them to develop and prosper. We provide a collective voice by taking your views and concerns to policy and decision makers.

The chamber provides an opportunity for people who create local jobs and drive the local economy to work together with the public and government to build a better, more prosperous community.

Mission

To provide exceptional service to our membership and the business community through strong advocacy, communication and community engagement.
